#### Description

## A. Description of overall philosophy (200-word limit):

Our philosophy is that students with exceptionalities are entitled to the support necessary from all stakeholders to maximize their potential within the context of Free and Appropriate Public Education (FAPE). The mission of InspireNOLA Schools is to transform and inspire an educational movement. Within the context of this mission, Exceptional Student Services Department ensures all educators maximize instruction and set high expectations for all students with an exceptionality. Using a whole-child approach, InspireNOLA promotes meaningful college and career preparation for post-secondary pursuits. InspireNOLA's Exceptional Student Services follow federal and state laws regarding the education of students with disabilities as well as those who are identified as Gifted and/or Talented. In addition to the academic, social-emotional, behavioral and enrichment services provided to students, related services are implemented based on scholars' Individualized Education Programs. All services reflect procedures that are substantiated with scientific based researched practices for classroom instruction. To assure that we properly identify students whom we suspect of having a disability, our Pupil Appraisal Team follows the regulations outlined by Louisiana Bulletin 1508 Pupil Appraisal Handbook. Thereafter, all students identified are provided FAPE.

| Description of<br>Extended School<br>Year<br>Services | Extended School Year Services states that the term refers to special education and related services that are provided to a child with a disability, beyond the normal school year of the public agency, in accordance with the child's IEP and at no cost to the parents of the child, and that meet the standards of SEA (state educational agency).  Delivery of Services: ESY services are not provided all summer long. Usually, such services are made available four to five weeks of the summer, meeting four to five hours per day; often, they're provided Monday through Thursday. The teacher may or may not be a child's normal school year teacher, but he or she is required to be qualified to teach special education and should understand the child's IEP program goals. Instruction is delivered on those goals and objectives that were identified by the student's special education teacher on the IEP. Materials are made available to certified teachers and paraprofessionals to address said goals and objectives. Progress monitoring takes place during this time to ensure adequate progress is being made and to adjust implementation of instruction where it is deemed necessary. The student's performance is summarized and shared with teacher of |                                       |   |  |
| Description of<br>Specialized<br>Programs             | Criteria for participation:  Community Based Instruction (CBI) Programs support students in grades K- 12 <sup>th</sup> (or until 21 <sup>st</sup> birthday) who have demonstrated through an academic assessments and other indicators that meet the criteria to participate in LEAP Connect. The programs seek to prepare students to function at a high level in less restrictive settings. CBI provides opportunities offering on-level remedial instruction that would be difficult to adequately provide in a general education or resource setting. This setting offers vocational training through in class workshops setting, community outings and school-based jobs, such as running the school store and performing office work deliverables.  Delivery:  CBI is a set of substantially separate (self- contained) classrooms taught by special education teachers, supported by paraprofessionals and clinical providers as directed by the IEP.   |                                       |   |  |
